

A man with a beard, wearing a red jacket, a dark hat, and a large green backpack, stands in a forest. He is looking down at a map or a small device he is holding in his hands. The background is filled with tall, thin evergreen trees under a slightly overcast sky.

SUNBIRD² COLLECTION

Since 1977, Gregory mountain products have strived to be the World's most comfortable, toughest and best fitting packs out there. Our product teams based in Salt Lake City are extremely passionate about making the perfect bag, just like Wayne Gregory was when he started the adventure, nearly 40 years ago.

Making great backpacks is a passion, built along the many journeys and hikes, up the mountains and throughout the World. Just like you, we breath the mountain and know what it takes to have that perfect view, that perfect moment where you feel part of it. Gregory packs are there to make that happen.

AVENUES COLLECTION

MILLCREEK | PIERPONT | I - STREET

Not every outing is a weeklong trek through the mountains, but every mission deserves proper ground support. Inspired by our hometown, where the mountains rise behind a metropolitan skyline, the Avenues packs tackle everyday challenges—bike commuting, pavement pounding, rush-hour crowd surfing—with modern designs that honor our rugged traditions. Weather-resistant and wicked tough, these packs can tackle a weekend trip or crosstown traffic like seasoned pros.

- Dedicated laptop and tablet sleeves and removable hip belts
- Soft touch quick access pockets with water resistant zippers

MILLCREEK ⁷⁴⁴⁶¹

We brought all-new heavy-duty tarpaulin fabrics and modern features to an old-school haul bag, and we called it the Millcreek. An uncluttered exterior helps this compact commuter split lanes on your way to the office, and bucket-style access makes packing a snap, so you can get up the canyon to the crag before sundown.

PIERPONT ⁷⁴⁴⁷⁶

While scrambling for shelter from a fast-moving front whipping across the valley, you can be confident that your gear is well protected. The Pierpont's heavy TPE-backed tarpaulin fabric body, water-resistant external zippers, and weather-shielding cover flap pull triple duty to safeguard your daily essentials, while signature Gregory comfort makes this pack ideal for long days on foot, in the saddle, or clocking layovers in every terminal from here to Nicaragua.

I-STREET ⁷⁴⁴⁵⁴

The largest Avenues pack measures up at a comfortable 30 liters, enough space for a long weekend—even longer if you're headed south—full of adventure. At home in the city, its tough, waterproof tarpaulin fabric, roll-top closure, and external-access laptop sleeve make it an extremely capable commuting pack, a haul-all gear bag, or the perfect companion for a desert trail-scouting session.

BORDER | SKETCH

Adventures don't stop where the trail ends, and neither does the need for a reliable way to haul your gear. We created the Gregory Aspect series to meet the demands of everyday life, designing each style to make your daily adventures as enjoyable as your weekend excursions. These versatile, progressive haulers are the favorites of those who share our admiration for clean lines, intelligent organization and comfortable carry.

MATERIALS & CONSTRUCTION

- 420 denier Nylon combined with 840 denier Poly
- Signature oversized seam allowance construction for trusted durability
- Premium LifeSpan foams and ultra-cush back panels for signature fit and comfort
- Dedicated laptop and tablet sleeves on all styles
- Safety lash points and various organization systems on all styles

BORDER 35 68400

The sleek, lightweight, and functional Border features a clamshell opening design that speeds access, improves organization of work and play gear, and places the pack's dedicated laptop and tablet sleeves in easy reach for TSA compliance. The clean exterior not only looks smart, it sheds weather and resists snagging in crowded subway cars.

SKETCH 25 6893

By borrowing the weather-resistant roll top closure design of a European courier bag, the Sketch 25 becomes a bike-commuter-friendly gear hauler. Adding laptop and accessory management makes it an office commuting expert, while Gregory signature fit and load-bearing technology take it beyond the day-to-day, giving you a business-ready daypack that functions outside city limits.

SKETCH 22 68392

This aerodynamic pack slices through traffic on your way to class, and a dedicated laptop compartment makes sure your notes arrive intact. Despite its traditional shape, this trail-ready daypack offers far more than a traditional schoolbag: internal and external accessory pockets, bike-friendly side-access compartments, and an ergonomic, ventilated harness and backpanel with hydration hose management.

| 22 L | 910 g | 54,5 x 35,5 x 10,5 cm |

SKETCH 18 68391

Trim on the outside, but fully featured for the daily grind, the Sketch 18 is the bag you'll grab for everything from a ten-mile hike to a twelve-hour shift at the shop. The spacious main compartment features a full-sized laptop sleeve that can double as a hydration reservoir holder, while the three external accessory pockets keep an organized eye on smaller items.

SUNBIRD² COLLECTION

FAR OUT DAY² | KLETTOR DAY² | OFFSHORE DAY²
COASTAL DAY² | DUFFLE²

In the early 70's, before there was a Gregory brand, our founder Wayne Gregory built packs under another flag: Sunbird. We've made it our mission to keep that history alive, with a series of packs and bags derived from photos and well-worn artifacts from those first few years.

The difference between a Sunbird bag and every other vintage copycat on the market is simple: uncompromised materials and construction, highlighting a craft not often evident in today's daypack offerings. The satisfaction of breaking in heavy-duty polyester canvas and genuine U.S.A. chrome-tanned leather trims, the feel of high-end foams and stainless steel hardware reminds us and inspires us to experience the outdoors as simply and purely as Wayne's first customers might have in 1977.
